**CHANDLER EARNS LEED® ACCREDITED
PROFESSIONAL DESIGNATION**

Troy, Michigan -- Scott M. Chandler, CIH, LEED AP, Manager of Industrial Hygiene Services at Testing Engineers & Consultants, Inc., recently passed the exam administered by the Green Building Certification Institute (GBCI), and earned the designation of LEED Accredited Professional.

Chandler, an American Board of Industrial Hygiene (ABIH) Certified Industrial Hygienist since 1989, joined TEC more than 25 years ago and is experienced in evaluating air quality complaints related to construction and renovation activities, as well as worker exposure to a wide variety of workplace contaminants. He provides professional consulting services to assist clients in compliance with numerous federal and state environmental regulations, including: hazard communication, respiratory protection, general industry and construction industry occupational health standards, air emissions, brownfield redevelopment, and asbestos and lead-based paint.

He is a member in good standing of the American Industrial Hygiene Association (AIHA), the Michigan Industrial Hygiene Society (MIHS), and the American Society of Heating, Refrigerating, and Air-Conditioning Engineers (ASHRAE).

Testing Engineers & Consultants (TEC) was founded in 1966 with offices in Troy, Ann Arbor and Detroit. As a woman-owned firm, TEC provides professional engineering consulting services in the environmental, geotechnical, facilities engineering, and construction materials testing and inspection disciplines.
