TEC WORKING ON MICHIGAN'S FIRST STIMULUS-FUNDED ROAD PROJECT

Troy, Michigan -- TEC is working on Michigan's first Stimulus-Funded project located in Ogemaw County, near West Branch, Michigan. TEC has been retained by the General Contractor Six-S, Inc. of Waterford, Michigan, to provide concrete batch plant certification services for this project.

Governor Jennifer Granholm was on hand for the April 24th groundbreaking and said that this project is a result of the recovery act, which is expected to create or save 109-thousand jobs across the State of Michigan.

With offices in Detroit, Ann Arbor and Troy, TEC, a Detroit-Based and Woman-Owned Enterprise, provides professional environmental, geotechnical, building and infrastructure engineering consulting, and construction materials testing and inspection services.
