**SKINNER JOINS TESTING ENGINEERS & CONSULTANTS, INC.**

*Troy, Michigan* – Wes Skinner, an Environmental Scientist with over five years experience, has joined TEC's Environmental Assessment Department. His diverse experience in managing environmental projects on a national basis will compliment TEC's strategic plan for growth.

Mr. Skinner's expertise includes soil/groundwater remediation; hazardous materials and waste characterization; lead paint, asbestos and mold investigations; environmental due diligence; property condition assessments; project management and oversight; geotechnical investigations; and wetland mitigation oversight. He holds a Bachelor of Science in Environmental Geosciences from Michigan State University and is a member of the National Brownfields Association (NBA), International Council of Shopping Centers (ICSC), Manufactured Housing Institute (MHI), and the Illinois Association of Environmental Professionals (IAEP).

TEC provides client support from property acquisition through construction, renovation and restoration. Expertise includes environmental and geotechnical engineering and consulting as well as facilities engineering, construction materials testing, indoor air quality and asbestos, lead and mold management services. Founded in 1966, TEC has offices in Troy, Ann Arbor and Detroit.
